

“298 International NASE-IAU Astronomy Course”

Dilir, Timor-Leste, May-June, 2022

Questionnaire

Discipline:

Math	Biology	Chemistry	Nat. Sciences	Astronomy	Physics	Primary	Other
5%	14%	19%	5%	14%	24%	5%	14%

Level:

Less 12	12 to 18	Over 18
21%	69%	10%

Is this school your first contact with astronomy?

Yes	No
53%	47%

If no, what is your background in astronomy?

Self-taught	Courses	Amateurs	University
60%	20%	10%	10%

What was the cause for participating in this course?

Professionals	Personnel
68%	32%

What do you think of the choice of dates?

Very well	Well
53%	47%

What about duration?

Very well	Well	Length	Short
42%	37%	5%	16%

What do you think of the organization of the day (and night) in four different types of activities: conferences, working groups, workshops, observations?

Very well	Well
68%	32%

What kind of activities have preferred?

All	Workshops	Working group	Lectures	Observations
32%	21%	32%	10%	5%

What kind of activities you like less?

None	Working Groups	Lectures	Observations
74%	5%	10%	11%

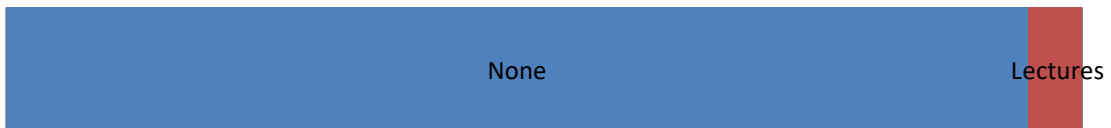

The subjects, have met your expectations?

Very well	Well
53%	47%

What would you delete?

None	Lectures
95%	5%

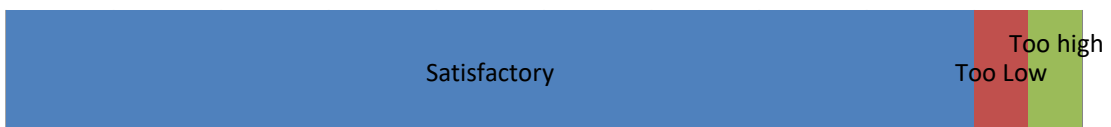

What would you add?

More Workshops	More Observations	More lectures	Observations	None
9%	40%	14%	40%	9%

The level of activities has been:

Satisfactory	Too Low	Too high
90%	5%	5%

What is your opinion about the teaching methods of teachers?

Very well	Well
74%	26%

What is your opinion about NASE web?

Very well	Well
68%	32%

What is your opinion about coordination between different activities?

Very well	Well
48%	52%

What is your overall opinion of the course related to:

a) Exchanges and contacts with other participants?

Very interesting	Interesting
68%	32%

b) What is your opinion about the usefulness of the course to their teaching?

Very useful	Useful
74%	26%

What especially criticize?

- The lectures could be made in video format, not as a pdf slideshow
- I enjoy very much the course and I'm waiting for another.
- Nada em particular
- The training action was a success and was of particular importance for the target audience it covered. Congratulations to the trainers.
- Some of the practical activities were very fast and I needed more time
- It could have more sessions, it was so interesting.
- Very good and interesting training
- For me, all the processes that I have learned in this material are very good, in preparing the material, the explanation and immediately putting it into practice are very good and make it easier for the participants and I do not correct anything here.
- I have nothing to criticize.
- I don't have any criticize
- I dont have
- My especially criticize is the explain about the thopic.
- Continue courses
- As sessões foram um pouco longas.
- Explaine slowly so that I can understand
- Nothing
- The explanation is very quickly
- Nothing to criticize

What you would value more?

- The proposal of the instrument's construction
- The exchange between colleagues
- As oficinas de trabalho
- The training workshop, the content covered, the availability of the trainers, the empathy they created with the trainees and the interest they managed to arouse.
- The trainer's great patience and mastery of the topics

- I would value night time observations; the teachers could show us important parts of the night sky through live telescope zoom conferences.
- The lessons learned and the way in which the trainers and colleagues
- I think it is very important for us as teachers who teach our children at school, how can we teach children from various ways to make it easier for children to process their lessons. That is, I ask that this program be continued, so that we have more good knowledge capital to share with future generations and it is a big responsibility for a teacher to transfer knowledge to new generations.
- I value more like seeing the constellations in the sky.
- I hope we have a continue course
- Get experience
- I want value more about the practice.
- Life Experience
- About the practice
- A construção de materiais pedagógicos.
- I need more opportunities to improve more my knowledge
- The relevance and the usefulness of the topics covered

Other observations?

- The conferences could be recorded and presented in a video format
- Timor-Leste is a developing country, knowing that someone cares, is fantastic! Congratulations!
- To make a short observation or compare the length of the day in Portugal, Mozambique and Timor
- Please do more of such scientific courses where non-science teachers (like me) can participate and learn! Thank you!
- Obrigadu barak!
- In my opinion, the only thing is that sometimes our internet in our country, TIMOR LESTE, the part of the area we live in, is very bad, and we can't complete our tasks in a certain time.
- During astronomy training everything went well.
- Give more time to know about astronomy
- Gain knowledge
- About my observation the course is good because can increase my knowledge in this area of science.
- Keep providing this type of training
- Yes, of course it is important to have them. The course is very interesting because it can add more my knowledge.
- Thanks to the trainers for having, with this training action, contributed to improving the training of Timorese teachers
