a) Exchanges and contacts with other participants?

Very interesting	Interesting
33%	67%

b) What is your opinion about the usefulness of the course to their teaching?

Very useful	Useful
67%	33%

What especially criticize?

- Very hard to focus on instructor. I would like to have more than one instructor in order to switch the attention and show the subject from different points of view.
- Create a checklist for participants in order to self-assess the understanding of the course materials.
- Create a list of questions for participants before each lesson in the course in order to prompt and resolve questions in advance.
- In order to improve the performance of the course, we need instructors to help develop the materials.
- Noy
- A slight time delay occurred during the conference

What would value more?

- Simplicity and the opportunity to do it yourself during the course.
- The opportunity to be connected to be part of the world wide web.
- A large number of courses that allow training professionals in a variety of subjects as well as in a wide range of levels. So that the courses can involve teachers of Geography, Astronomy, Mathematics and even Biology of different grades.
- Your participation
- Emotional speech of the lecturer

Other observations (it is important to have them!)

- We need to improve the materials on Russian language.
- Everything is great, accessible and interesting despite the fact that the lecture was in English. Thank you very much
