

Conclusion

Iran, Kerman 2023

In the closing session of the course, several participants give their opinions about the course as conclusions. Some of these are following:

- Thank you for organizing this course. Even though I am a doctoral student in astronomy, all these tools were new and interesting to me.
- The course was very creative and please organize other NASE courses in Kerman.
- These tools are very interesting and practical and I will use them for observations from now on.
- Please organize other courses; we are interested to participate.
- I learn many scientific concepts when we made tools and worked with them.
- As all the presentations are ppt, please use animation options in slides.
- The methods of teaching were really attractive, thank you!
