

"444 International NASE-IAU Astronomy"

Bushehr, Iran, December 2024

Questionnaire

Discipline:

Social Sciences	Physics	Astronomy	Natural Sciences	Chemistry	Other
18%	18%	9%	9%	37%	9%

Level:

Below 12	Over 12- Below 18	Over 18
12%	12%	76%

Is this school your first contact with astronomy?

No	Yes
37%	63%

If no, what is your background in astronomy?

Amateurs	Courses	Self-taught
20%	40%	40%

What was the cause for participating in this course?

Professional	Personal
50%	50%

What do you think of the choice of dates?

Very well	Well
75%	25%

What about duration?

Very well	Well	Short
50%	25%	25%

What do you think of the organization of the day (and night) in four different types of activities: conferences, working groups, workshops, observations?

Very well	Well
63%	37%

What kind of activities have preferred?

All	Workshops
63%	37%

What kind of activities you like less?

None	Lectures
63%	37%

The subjects, have met your expectations?

Very well	Well
63%	37%

What would you delete?

None	Lectures
75%	25%

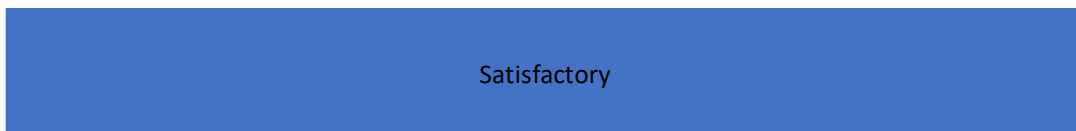

What would you add?

None	Observations	Workshops	Working Groups
14%	44%	21%	21%

The level of activities has been:

Satisfactory
100%

What is your opinion about the teaching methods of teachers?

Very well	Well
75%	25%

What is your opinion about NASE web?

Very well	Well
63%	37%

What is your opinion about coordination between different activities?

Very well	Well
50%	50%

What is your overall opinion of the course related to:

a) Exchanges and contacts with other participants?

Very Interesting	Interesting
50%	50%

b) What is your opinion about the usefulness of the course to their teaching?

Very useful	Useful
50%	50%

What especially criticize?

- Time of practical work be more.
- Classes should be structured and project-oriented
- The training should not be so intensive that it would be boring, and the workshops should be more detailed and practical. Especially since we are educators of children and adolescents and we want to see more details so that we are not too lazy to present the material.
- Everything was great, if the work was seen more, it would be better
- The time of each workshop was very short

What you would value more?

- What was learned was so that it could be implemented
- Making equipment and doing group work
- Practical work
- A friendly relationship between the instructor and the student, pointing out the important contents and their details, as well as understanding the workshops and presenting various contents in the field of astronomy... a special training course suitable for trainers of children and adolescents.
- For me, the workshop was more valuable and added to my knowledge
- The practical workshops were very good
- That the professors tried to make the concepts understandable and easy by using the simulation technique
- Very good. I enjoyed this astronomy course. I wish they talked more about galaxies.

Other Observations

- We can increase the facilities of the workshop
- Using telescopes and Planetarium and seeing celestial objects and complete explanations about them
- This course was excellent
