**What especially criticize?**

- No
- En si el curso es lindo e interesante, si bien es mucha información y a veces se hace poco el tiempo para estar concentrado.

**What you would value more?**

- La pasión de la profesora
- Se valora la práctica con materiales reciclados en su mayoría. El que se nos permita tener información concreta en la página web. El que se nos permita realizar un curso gratuito y certificado.
- Los talleres son muy didácticos, interesantes.
- Valoro la predisposición de Beatriz, los datos interesantes que sabe y aporta en las clases.

**Other Observations**

- Sería bueno hacer el curso de manera continua sin interrupciones pero hasta en mi caso seria complicado hacerlo. Agradecida por el nivel y la gratuidad del mismo
- Si se realiza alguna evaluación que sea el mismo día. Por ejemplo Sábado. Que se nos tenga en cuenta para una futura capacitación.
- Es muy cálido el ambiente de trabajo, me hubiera gustado tener una base más fuerte de astronomía, creo que eso me hubiera ayudado a establecer relaciones más rápido.
