What especially criticize?

- Nothing
- It would be better to have two separate days for the activities
- Very different level of subject knowleges of participants
- Lack of time for the subjects.

What you would value more?

- Workshops, analyzing methods in groups
- Liinking theory with practical activities.
- Simplicity of experiments
- Practical experiments
- Communication with colleagues
- Experiments
- Practical simple experiments

Other observations (it is important to have them!)

- Participating in the training enriched not only my knowledge, but also my future lessons for elementary school children.
- The course and lecture were really impressive, providing so many practical ways to explain difficult things in simple and affordable way. Would love to have more such type of courses
