a) Exchanges and contacts with other participants?

Very Interesting	Interesting
67%	33%

b) What is your opinion about the usefulness of the course to their teaching?

Very useful
100%

What especially criticize?

- Nothing
- Everything is very well organized and adapted to the teachers' teaching levels.
- I do not feel there is anything to criticize, it was useful for me, and it generated an interesting interaction with more experienced colleagues about the contents that was also very useful.
- A utilização da expressão "planetas gasosos".

What you would value more?

- Observations
- The relation between astronomy and life
- The materials.
- The accessibility and adaptability of the materials for the children to work with
- As a biochemist starting to work with astronomy it was really interesting for me to review some general concepts including the relative position of stars and constelations.
- A utilização de materiais muito simples - materiais no dia-a-dia
