

CONCLUSIONS

NASE course, Armenia 2025

In the closing session, participants give their opinions. We include here some of them such as conclusions of the course.

- I was very pleased to participate in this course and thankful for the workshops.
- As participants we were inspired by explanations and experiments.
- After that, participants had a lot of questions about contents, the formation of micrometeorites in Earth's atmosphere. Instructors explained and they discussed it. Also, some of them explain more about micrometeorite activity that their students.
- It was very nice time in the course, even with all the technical issues.
- I hope this kind of courses are always doing well.
