a) Exchanges and contacts with other participants?

Very Interesting	Interesting
58%	42%

b) What is your opinion about the usefulness of the course to their teaching?

Very useful	Useful
83%	17%

What especially criticize?

- None
- No
- Nothing
- Nothing because all was perfect
- Nothing (but if it is possible to divide the process of studying into two branches- English-Kazakh, English-Russian- because when you listen to the speaker, it is easy to catch the information in your own language from the presentation-slides)
- I don't understand in English

What you would value more?

- All
- Simple explanation
- Practical application of knowledge, experiments, calculations
- Next meeting and collaboration
- The information can be used at the lesson of English, because 9-11 forms study such categories at the lessons, and materials should be proved and based upon the real scientific websites (information) and sources. It is so important and amazing for pupils.
- Practice experiments
- Very useful
- Interesting
- Practical work

Other Observations

- Thanks
- Everything is good
- All the information was quite interesting. I liked the stem approach to studying astronomy. It was very informative
- My appreciation to all NASE team
- Thanks a lot for everything!!!
- That's, ideas
