### **What especially criticize?**

- Nothing
- I think two days is not enough for training
- None
- There is nothing to criticize.
- The information should have been fully available in Georgian
- Nothing, it was amazing.
- No problem
- When you send the email to participants, mark the location on a map or attach a photo of the facade, otherwise the observatory will not be marked from the outside and they will have difficulty finding it. The time of the courses were too little, 2 days weren't truly enough. (Duration)

### **What you would value more?**

- Excellent
- I think it would be good to spend more time training teachers in astronomy.
- I learned a lot of interesting things
- Now I know your website, which allows us to learn about the experience of educators from other countries in this field.
- Hard topics were explained easily
- Working group and observations
- Observations
- The lectures were very good.
- All activities
- Everything was splendid, nothing in particular!
- We had very good lecturers and definitely collaborated with them.

### **Other Observations**

- I wish there were more lectures like this.
- To increase the number of meeting days
- I liked everything very much.
- It would be good if such trainings were held in large groups at the Abastumani Observatory in the summer.
