

SOLAR PANELS

Mongolia, Asia

Rosa M. Ros

*International Astronomical Union
Technical University of Catalonia, Spain*

Without electricity

With solar
panels
oriented

With different orientations?

ALWAYS with the same orientation
according the solar path!!

Direction N-S with the inclination = **site** latitude

Best sits in the Bus

From Ulaanbaatar to Tsetserleg

Sunny part on the South part,
that is to say
it is better to sit on the right

Many Thanks
for your attention !
